*Fees are nonrefundable.*

*RM 100 will be charged for change of participant's name.*

# COURSE OUTLINE · RUBBERDAMMOLOGY MASTER CLASS

## Lecture:

1. Various modes of dental isolation. Why rubber dam?
2. Single Tooth Isolation vs Multiple Tooth Isolation  
*Their benefits & drawbacks, tips & tricks of application, selection of dam, dam inversion, clamp selection, floss ties, dam on dam, mini dam, applications of brinkers*
4. Isolation for tooth preparation
5. Isolation in subgingival caries
6. Restoring the subgingival defect - Deep marginal elevation  
*Why, When and How is it superior to crown lengthening, Gingival management, matrix and wedge selection, Injection molding using composites.*

## Hands-on:

1. Eight different exercises on prepared typodont models
2. Isolation using winged and wingless clamps & selection of clamps in different clinical scenario
3. Isolation of Class-I to Class-V carious lesions along with dam inversion, floss ties, soft tissue retractors (brinkers)
4. Isolation during direct and indirect bonding procedures
5. Clampless isolation
6. Selection of rubber dam sheets with different consistency

**Participants get to bring back the assorted kit of rubber dam clamps from Dr Ashwin's Rubberdamology kit (Choice of black, blue or gold colour set)**

# ABOUT THE SPEAKER · RUBBERDAMOLOGY MASTER CLASS

Dr. Ashwin Kumar has completed his Master In Conservative Dentistry And Endodontics from Chennai, India.

He went on to complete his Membership In Endodontics from Royal College of Surgeons, Edinburg.

He has special interest in Microscopic Restorative Endodontics and routinely uses the most overlooked tool in dentistry – THE RUBBERDAM.

Dr Ashwin has several national and international publications to his name and has conducted his Rubberdamology course in various parts of the world.

He also has come up with his own rubber dam clamps which includes winged, wingless and tissue retractors in a single kit.

Currently, his private practice is based in Muscat, Oman and he frequently travels abroad for his lectures.
